TOL-0018 - Stone details

Color

Blue, cyan and blue-green flash with blue-violet accents in irregular mosaic-like patches. Color changes with light and viewing angle.

Weight and measurements

Recorded weight 1.345 ct, shown in the scale photo. Approximately 8 x 7 x 3.5 mm, confirmed by the cutter. Have the actual stone measured before making a setting.

Material and working grades

Natural, solid, untreated Australian opal, cut from rough by The Opal Ledger. N4 body tone; B3 typical brightness with brighter highlights on the working AOB7-v1 scale. Cutter assessments, not laboratory certification.

Condition

A small superficial sand inclusion remains near the back/edge. The cutter confirms no structural issues.

Viewing and documentation

Exact-stone face, reverse, scale and caliper photographs, plus a silent movement excerpt. No artificial color or flash enhancement. Video converted from HDR for playback compatibility. Close-ups are not life-size.

Included

One loose stone only; no setting or finished jewelry. No laboratory report accompanies the stone.
